

# TK15

MEMBRANE GAMING KEYBOARD

## ADVANCED TECHNOLOGY

### LED EFFECT

The light bar design on the sides of the keyboard casts subtle ambient light onto the table top with additional pulsating effect.

### ANTI-GHOSTING

Imagine playing your favorite video game and not being able to, sat, run diagonally and fire your weapon at the same time! (say pressing a, w, and g simultaneously)! TK15 offers 19-key-press anti-ghosting ability which means you are totally free at your games!

### SPLASH-PROOF DESIGN

No more worries about accidental splash of water onto the keyboard! TK15 keyboard structure is specially designed so that the water will seep out of the interior without damaging the electronic part. Just wipe it dry and continue with whatever you were doing!

## UNPARERRELED DESIGN

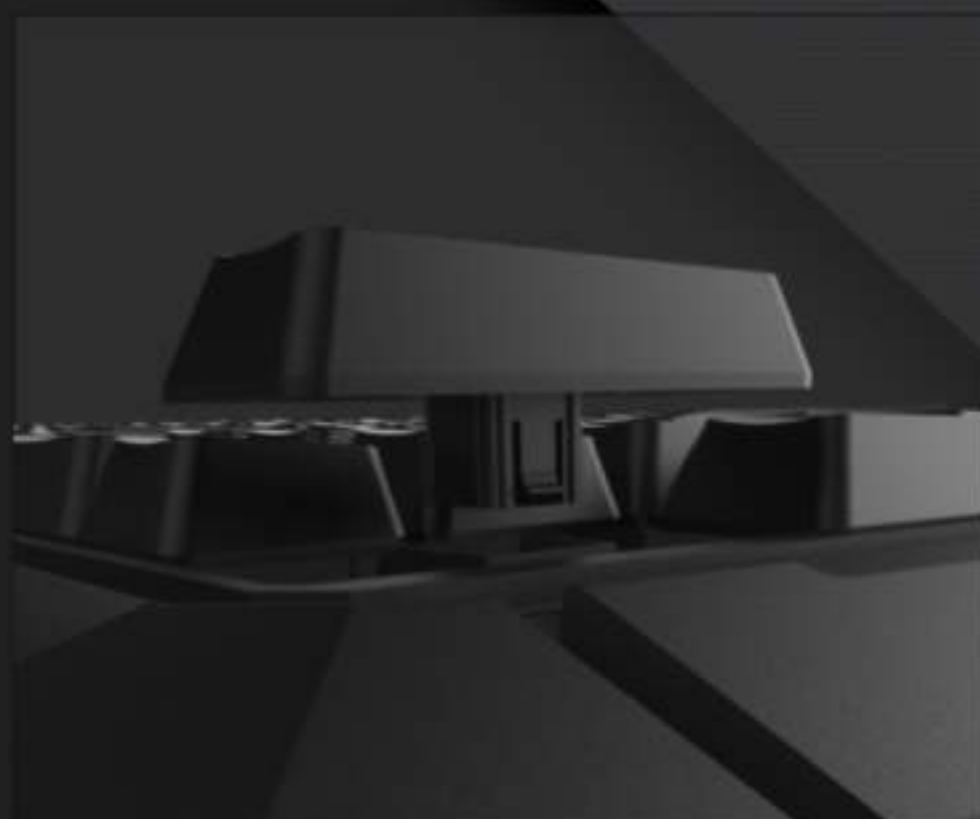

### WRIST REST

The injected ABS wrist rest area is designed with subtle texture so that when playing long session games or just simply working your nights away, your wrist is placed at a comfortable angle and it can help to prevent repetitive stress injuries and even carpal tunnel syndrome.

### GAMERS' KEYBOARD

Unique and futuristic design makes this membrane keyboard stands apart from other entry keyboards and stand out in the crowd.

### MEMBRANE KEYBOARD

An extremely reliable membrane keyboard with its life cycle reaching up to 20 million keystrokes, TK15 delivers the precision, speed and performance.

## TECH SPECS

Model Name	TK15
Key switch	Membrane Key Switch
Anti-Ghosting Keys	19
Game type	FPS / MMORPG / MOBA / RTS
Material	Plastic (ABS)
Interface	Gold-plated USB Plug
Cable Length	1.8m Braided
Dimension	220(D) x 469(W) x 34(H) mm
Weight	1.80kg ±10g
