TM40

PRO E-SPORTS LASER GAMING MOUSE

GAMING REVOLUTION

DEADLY PRECISION

9800 SENSOR

Housed in the heart of TM40 the AVAGO-9800 is the perfect chip for laser navigation sensor. It is capable of high-speed motion detection, nearly all 100g's and acceleration up to 30g. This is a very important factor as it means never miss a hit while situation gets hot at gaming.

SWITCHES

The Omron mechanical switch is excellent for its reliability and has a lifetime of 10 million clicks. It produced subtle click sound at a gentle press of the mouse button and delivering quick and responsive results.

WHEEL

Just as important as switches, the TM40 scroll wheels can turn hundreds of millions of times in its lifespan for going through lengthy gaming sessions. Whether it is to save a life in gaming, whether it is to save the world in grenade or zoom in on the battlefield, you need to be highly robust for heavy duty precision scrolling.

UNMATCHED PERFORMANCE

MATERIAL

TM40 features a soft-touch paint on the top part of the mouse that give user a smooth and pleasant rubbery touch while holding the mouse and at the same time it will help avoid slipperiness from the sweat of the palm especially during gaming sessions.

CONNECTOR & CABLE

The gold-plated USB connector ensured that the connection will be corrosion-free and maintain the quality of the data transmission. The braided cable sleeving also nicely hide away the ugly wires and make sure there is no cable entanglement during game play.

TEFLON FEET

The professional Teflon Feet is to ensure a perfect and smooth glide in any surface with precision tracking. It also ensures no scratching on either mouse or surface as it wears downs in long term. As extra set of Teflon feet is included to maximize the value of this mouse.

UNPARERRELED DESIGN

BUTTONS

Buttons are ergonomically designed at a perfect position so that your thumb can comfortably reach these buttons without doing any finger gymnastic. The buttons are placed at the top edge of the mouse so it also means that there will be no clicking by accident during vicious game play.

SHAPE

When we designed this mouse we tested some of the most popular mouse in the market and study the contour and the feel of touch. As a result we have designed this mouse that fits in your hand perfectly and comfortably especially during long hours of work or while during marathon gaming sessions.

LIGHTING EFFECT

The LED light at the inner rear of the mouse create a warm ambient effect and cast subtle light on to the table surface. The color of the LED changes in sync with the DPI and the scroll wheel lights.

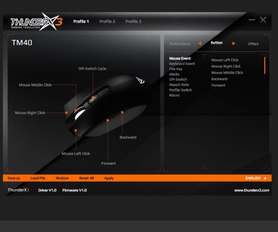
ENDLESS CUSTOMIZATION

UI CUSTOMIZATION

A specially designed software is included with this mouse to give you the flexibility to make custom changes to the mouse to suit your need.

The functions are adjusting the speeds of scroll wheel and pointer, re-assign button functions, set macro keys and A/Y DPI values with multiple profiles.

Download TM40 Mouse Software



16.8 MILLION COLORS

You can now access 16.8 million colors with the help of the software that come with the mouse. There are some advanced lighting settings to choose from such as breathing light effect or single light color.

TECH SPECS

Model Name	TM40
Sensor	Avago-9800 Laser Gaming Sensor
Resolution	1000 / 3000 / 5000 / 16000 DPI
Processor	32-bit
Game Type	FPS / MMORPG / MOBA / RTS
Polling Rate	1000Hz / 1ms
On-board Memory	512KB
Material	ABS
Software	Thunder x3 System
Programmable Buttons	6
Switching	OMRON Gaming Switch
Profile LED Backlight	16.8 Million Colors
Frame Rate	12000 FPS
Maximum Tracking Speed	150 IPS
Maximum Acceleration	30G
Interface	Gold-plated USB Plug
Cable Length	1.8m Braided
Dimension	128(L) x 70(W) x 35(H) mm
Weight	141g ± 1g
