GAMING REVOLUTION

TM60

PRO E-SPORTS LASER GAMING MOUSE

DEADLY PRECISION

9800 SENSOR

The 9800 Legend provides enhanced features such as variable frame rate, programmable resolution, angle tunability, X-Y axis independent resolution, programmable angle snap plus configurable sleep and wake up modes for ultimate gaming precision. This gaming sensor is designed to achieve optimum performance during gaming sessions.

SWITCHES

The Cherrie mechanical switch is excellent for its reliability and has a lifetime of 10 million clicks. It produced subtle click sound at a gentle press of the mouse button and delivering quick and responsive results.

WHEEL

Just as important as switches, the TM60 scroll wheels can turn hundreds of millions of times in its lifespan for going through lengthy websites and documents, as well as for gaming. Whether it is to scope, throw a grenade or reload in the battlefield, you need to be highly robust for heavy duty precision scrolling.

UNMATCHED PERFORMANCE

MATFRIAI

TM60 features a soft-touch paint on the top part of the mouse that give user a smooth and pleasant rubbery touch while holding the mouse. It also provides a comfortable and avoid slipperiness from the sweat of the palm especially during gaming sessions.

CONNECTOR & CABLE

The gold-plated USB connector ensured that the connector will be corrosion-free and maintain the quality of the data transmission. The TM60 cable is also braided to avoid tangling, away the ugly wires and make sure there is no cable entanglement during game play.

TEFLON FEET

The professional Teflon Feet is to ensure a perfect and smooth glide in any surface with precision tracking. It also ensures no scratches on the surface even when it is worn downs in long term. An extra set of Teflon feet is included to maximize the value of this mouse.

UNPARERRELED DESIGN

SCROLLER

Repetitive scrolling during intensive game play sometimes may cause stress and discomfort to the finger tip and the joint. The TM60 scroller is designed to be ergonomic to have the width of the scroller wheel up to 10mm wide with robust pattern design on the rubber ring to make sure the finger tip can steadily scroll with a firm grasp on the wheel surface.

PRO-eSPORT

An outstanding professional e-sport GAMING grade mouse headed by an ultra-precise 16000dpi laser sensor ensures all mouse movements are transmitted lag-free with incredible accuracy

ALUMINUM BASE

The hair-brushed aluminum base not only is part of the overall aesthetic of TM60 but very importantly it is acting as a counterweight. It is also helping to lower the center of gravity for maneuvering during games it helps to keep the mouse in contact with the surface.

ENDLESS CUSTOMIZATION

UI CUSTOMIZATION

A specially designed software is included with this mouse to give you the flexibility to make custom changes to the mouse to suit your need.

The functions are adjusting the speeds of scroll wheel and pointer, re-assign button functions, set macro keys and X/Y DPI values with multiple profiles.

Download TM60 Mouse Software

TRUE COLORS

TM60 allows you to access and customize with 16.8 million true color options

16.8 MILLION COLOR CUSTOMIZABLE BACKLIGHTING

INTERCHANGEABLE PANEL

TM60 comes with an extra finger grip panel made out of silicon that can interchange with the right side finger rest panel. The surface is designed with texture and this will increase the friction with the fingers and avoiding the fingers from slipping due to sweat.

TECH SPECS

Model Name	TM60
Sensor	Avago 9800 Laser Gaming Sensor
Resolution	1000 / 3000 / 5000 / 16000 DPI
Processor	32-bit
Game Type	FPS / MMORPG / MOBA / RTS
Polling Rate	1000Hz / 1ms
On-board Memory	512KB
Material	ABS
Software	ThunderX3 System
Programmable Buttons	8
Switching	OMRON Gaming Switch
Profile LED Backlight	16.8 Million Colors
Frame Rate	12000 FPS
Maximum Tracking Speed	150 IPS
Maximum Acceleration	30G
Interface	Gold-plated USB Plug
Cable Length	1.8m Braided
Dimension	125(L) x 75(W) x 39(H) mm
Weight	117g + 1g
